2019 Insight Hybrid
Live today with a love for tomorrow. Talk about a guiding mantra. Here’s to hitting the fast lane while skipping the gas lane. Here’s to doing good and looking good doing it.
Efficiency over style? Never. The 2019 Insight redefines our hybrid concept, blending gratifying looks and electrifying performance with impressive fuel efficiency ratings. Mating a zippy 1.5-litre Atkinson-cycle engine with two electric motors, you’ll find serious efficiencies in the tank and your ETA. And with the battery cleverly stored beneath the seats, cargo space and leg room take on their own sense of conservation. The 2019 Insight is unlike any hybrid you’ve ever seen.

Key Features:

Honda Sensing™ Technologies, Apple CarPlay™/Android Auto™

1 None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless safely doing so. Additional features are available at no charge for the 2019 Insight. Check with your dealer for details.

2 Only compatible with certain devices and operating systems. Operation may be dependent upon:

1. GPS satellite signal reception and available cellular data and/or voice connection; or
2. connection to vehicle’s built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.

A hybrid with high style.

Do good. And look good doing it. The Insight ushers in a new era of refined hybrid styling.
Eco-sense meets fashion sense.

This hybrid is on a mission to do good – for the earth, and your look. Sporting a wide, powerful stance complete with Honda’s signature flying wing grille and bold facia, the Insight is the perfect accessory to your driveway. The best part? These aggressive style cues are only half the package. Beyond the sweeping coupe-like roofline and character lines, the Insight features LED headlights, taillights and brake lights, plus LED daytime running lights and fog lights that all inspire a serious air of sophistication. Even the 17” aluminum-alloy wheels turn your drive into more of a strut. For the finishing touches, the available one-touch power moonroof with tilt feature and various chrome finishes prove that an eye for efficiency pairs best with an eye for style.
Turns out an efficient ride really can be comforting. The Insight features ergonomically sculpted seating that you and your passengers will enjoy on every trip.

Pleased to be seated.

While helping to minimize its impact out there, the Insight makes an absolute statement in here. Thanks to the wide exterior, the interior is graced with a spacious cabin that’s equal parts sporty and classy. Every detail is crafted with a refined palette, from the soft-touch instrument panel with real stitching to the elegant heated front seats and available heated rear seats (outward positions only) with available perforated leather-trimmed seating surfaces. When lowering the 60/40 split fold-down rear seatback, the Insight boasts an available 428 litres of cargo volume that you’ll love to fill. And for you, just step into the driver’s seat with 8-way power adjustment and grab the leather-wrapped steering wheel to hit the road. Gently.
It’s time to leave hybrid compromise in the dust. The Insight features a zippy 1.5-litre, 16-valve, Atkinson cycle DOHC, i-VTEC® 4-cylinder engine that elevates hybrid power to new heights. Using an Electric-Continuously Variable Transmission (E-CVT), the electric motors and gasoline engine are engineered to work in perfect harmony to help maximize efficiency, producing impressive fuel consumption ratings. Together, the Insight churns out 151 combined total horsepower¹ and 197 lb.-ft. of electric motor torque. Using the steering wheel-mounted deceleration paddle selectors and three adaptable driving modes – Sport, EV and ECON – you’ll be able to help maximize the performance of this agile hybrid. It’s all just working proof that doing good can include a serious amount of feeling good, too.

¹ Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.

Hugs trees. And corners.
Naturally futuristic.

We’re driving towards a better future with some modernistic technology in tow. Once you’ve fired up the engine with the intuitive pushbutton start or remote engine starter, the multi-angle rearview camera with dynamic guidelines\(^1\) will be your backup aid when reversing out the driveway. And when you turn onto those main roads, it’s time to turn on your playlist using the Apple CarPlay\(^2\)™ and Android Auto\(^2\)™ compatibility in the 8” Display Audio System\(^1\). The available 452-watt AM/FM premium audio system with 10 speakers including subwoofer are fine-tuned to handle all your tunes.

As an expert in efficiency, the Insight will help you find the most efficient route to your destination using the available Honda Satellite-Linked Navigation System\(^1,3\)™ and bilingual voice recognition. Whether it’s main roads, side roads or off-roads, the Honda LaneWatch™ blind spot display will send a live feed to the 8” Display Audio System\(^1\) screen. And when you’re heading out or driving in, the available HomeLink® remote system\(^4\) is the perfect aid, conveniently operating your garage door, security system and various home appliances from three buttons integrated into the vehicle’s interior.

\(^1\) None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations.

\(^2\) Only compatible with certain devices and operating systems. Operation may be dependent upon: 1) GPS satellite signal reception and available cellular data and/or voice connection; or 2) connection to vehicle’s built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.

\(^3\) Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.

\(^4\) HomeLink® can be programmed with up to three compatible remote devices (e.g., garage-door system, home-security systems, etc.).
HONDALINK™ AND ADVANCED CONNECTIVITY

Remote Start
Enjoy getting into a comfortable car with automatically adjusted climate control.

Remote Door Lock/Unlock
Whether you’re locked out or forgot to lock up, count on quick, keyless entry and remote assurance from almost anywhere.

Geofence Alert
Get notified when your car enters or leaves a designated region.

Stolen Vehicle Locator Service
Designed to help recover your stolen vehicle faster. The system uses sophisticated technology to assist the authorities with attempting to find your vehicle.

Auto Collision Notification (ACN)
In the event of an accident, a Response Agent automatically checks in, and helps send emergency care, even when passengers aren’t able to respond.

AT&T Wi-Fi Hotspot
Connect up to 7 compatible devices with your vehicle’s available built-in Wi-Fi hotspot. Enjoy up to 4G LTE speeds on multiple devices. From the open road, you’ll be able to stream hours of videos, play games, get real-time email access and surf the web. You’ll be able to stay connected up to 50 feet away from your Insight.

Stay Connected
To learn more about the many HondaLink™ features not listed here, visit honda.ca/hondalink.

The available HondaLink™ Subscription Services helps to connect you to a world of features both inside and outside your Insight, while other available apps and features are designed to entertain and inform.

HondaLink™ Subscription Services

1. None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. There are laws and restrictions regarding the use of electronic devices and systems by drivers operating motor vehicles, and we urge you to comply with those laws and restrictions. Please visit honda.ca for further information.

2. Only compatible with certain devices and operating systems. Operation may be dependent upon:
   1. GPS satellite signal reception and available cellular data and/or voice connection;
   2. connection to vehicle’s built-in Wi-Fi hotspot, if applicable.

3. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.

4. Hybrid Touring model only.

Advanced Connectivity

1. New vehicles are equipped with a complimentary time or data trial period, whichever comes first. After the trial period, contact AT&T or visit att.com/honda to purchase available data plans. 4G LTE connection speeds may vary by region and network.

To visit honda.ca/hondalink for additional HondaLink™ information, please visit www.honda.ca/privacy.
The Honda Sensing™ technologies are designed to help make your drive safer. With intuitive technology and design, we’ve created a way forward that we can all feel good about. Whether you’re driving or sitting in the passenger seat, feel confident in the latest in safety innovation from Honda.

Forward Collision Warning (FCW) system
The FCW system is designed to detect the presence of vehicles in front of you and issue audible, visual and tactile alerts if you’re approaching with too much speed. If you fail to respond, CMBS® is triggered into operation.

Collision Mitigation Braking System™ (CMBS®)
To help reduce the likelihood or severity of a frontal impact, CMBS® is engineered to apply light brake pressure if you don’t respond to FCW system alerts. If it still senses an imminent collision, CMBS® is designed to brake forcefully.

Lane Departure Warning (LDW) system
The LDW system is designed to monitor vehicle lane position and issue visual and tactile alerts if your vehicle drifts into another detected lane without signaling.

Lane Keeping Assist System (LKAS)
The LKAS® is engineered to gently correct your steering if you begin to leave a detected lane without signaling, applying torque progressively to the steering to help guide you back to the centre of the lane.

Road Departure Mitigation (RDM) system
The RDM system is designed to help steer and even apply the brakes if it detects that your vehicle may leave the road.

Adaptive Cruise Control (ACC) with Low-Speed Follow (LSF)
The ACC system with Low-Speed Follow is designed to keep a constant speed and set following interval behind any vehicle detected in front of you, including an ability to slow, stop and start with the flow of traffic.

Traffic Sign Recognition (TSR)
TSR uses a monocular camera to monitor speed limit signs, keeping you informed of the detected speed limit with a visual icon on the Driver Information Interface.

The Insight has some foresight.

1. None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. For additional feature information, reference the vehicle’s Owner’s Manual.
Solid on safety.

At Honda, we strive to provide a high level of standard safety features to help ensure the safety of occupants, other drivers and even pedestrians. This added peace of mind helps our drivers maintain the confidence to enjoy every road to the fullest.

Passive Safety

Advanced Compatibility Engineering™ (ACE™) body structure
The highly innovative, next-generation Advanced Compatibility Engineering™ (ACE™) body structure is engineered to help disperse frontal impact energy to enhance occupant protection, while more effectively controlling it in severe collisions to help prevent intrusion into the passenger cabin.

Child safety
The Insight features childproof rear door locks, as well as rear seat Lower Anchors and Tethers for Children (LATCH), which give you a simple and convenient method to install compatible child safety seats without using the vehicle’s seat belt system.

Pedestrian safety
Innovative pedestrian safety features include an energy-absorbing hood and front fenders and deformable wiper pivots.

Seat belt safety
The Insight helps prepare you for the unexpected with 3-point height-adjustable front seat belts with an automatic tensioning system, and 3-point rear seat belts.

Six standard airbags
The cabin of the Insight contains six standard airbags. It features an i-SRS front airbag system, as well side curtain airbags designed to deploy if a rollover is detected. Plus, it has SmartVent™ side airbags, which are designed to deploy in a manner that mitigates the risk of injury to out-of-position or smaller occupants.

HondaLink™ Assist Automatic Emergency Response System
The HondaLink Assist Automatic Emergency Response System™ helps you get the help you need when you need it most. If the airbags deploy, your Display Audio System is designed to automatically attempt to put you on a call with an operator who will forward your location to first responders if needed. It works with any compatible Bluetooth®-paired phone as long as it has reception, does not require a subscription and gives you added peace of mind while you’re on the road.

Passive Safety

Controlled Braking
To assist with safe stopping, the 4-wheel Anti-lock Braking System (ABS) is designed to help you maintain control under hard braking conditions, while Electronic Brake-force Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. In addition, Brake Assist is engineered to help improve braking performance by applying brake pressure when a panic stop is detected.

Vehicle Stability Assist (VSA®) with Traction Control
Vehicle Stability Assist is designed to sense and help correct oversteer and understeer scenarios to enhance handling and cornering stability, while Traction Control is designed to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

Active Safety

Hill Start Assist
If you take your foot off the brake when stopped on an incline, this feature is engineered to temporarily maintain brake pressure to help prevent your Insight from starting to roll backwards.

Auto high beam
The auto high beam feature automatically changes the low beam headlights to high beam headlights in certain circumstances to help improve your vision.

1 None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. To Some features are intended to enhance the driving experience or provide a more comfortable and enjoyable ride. It is illegal to use any feature in a manner not intended by Honda. Use all devices in accordance with all applicable laws and regulations. See Honda.ca for additional details.
2 Some features are available in Canada with a Wi-Fi®-based service subscription. Check your local Honda dealer for more information. Applicable terms of use, disclaimers and restrictions apply. WARRANTY

We're Here. At Honda, assistance and support are always available. The team of trained technicians at your Honda dealership will help keep your vehicle in terrific shape. If you need more information or assistance relating to your warranty, call us at 1-888-9-HONDA-9. For all of the latest Honda information, including product specifications, pricing, photos and more, visit honda.ca. It has everything you need to “design” your Honda and personalize it with items from a list of quality accessories.

We’re Ready to Help. When you purchase a new Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you, or any authorized driver, 24 hours a day, 7 days a week, anywhere in Canada or the United States (including the lower 48 states, the District of Columbia, Alaska, Hawaii, and Puerto Rico). Coverage is for 3 years over an unlimited distance and includes a 24-hour toll-free Honda Plus Roadside Assistance number, mechanical breakdown towing, emergency roadside service and many other helpful features. Ask your dealer for more information.

Honda Plus Extended Warranty. Experience added protection with Honda Plus coverage that is behind you for the road ahead. With available coverage options of up to 8 years/200,000 km, you can choose the one that best suits your needs. With a plan this wide-ranging, the only thing that’s uncertain is where it will take you.

Honda Financial Services. Whether you buy or lease a Honda, Honda Financial Services can assist you with the process. Ask your dealer which lease or purchase plan best suits your needs.

New Honda Vehicle Warranty. The Honda warranty protection makes Power Train components a minor concern with the Honda 5-year/100,000-km No Nonsense Warranty. In addition to the Honda 3-year/60,000-km Distributor’s Warranty as well as an additional series of warranties for such items as emission controls, body corrosion and more.

Genuine Honda Accessories give you the opportunity to fine-tune your new Honda just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your dealer for full details.

Genuine Honda Replacement Parts are made to the same exacting standards as original Honda components and are guaranteed by the Genuine Honda Parts Warranty. Using Genuine Honda Parts will help to maintain the quality, reliability and performance of your vehicle.
Here’s to the dreamers.

The Power of Dreams
At Honda, The Power of Dreams drives us to create intelligent products that enhance mobility and increase the joy in people’s lives. It is the mindset that guides us to help move people forward and protect the future we all share.

How do we do it? We never stop dreaming. In the 70s, we were the first automaker in the industry to voluntarily adhere to emissions standards. Now, we’re advancing robotics and aviation, harnessing solar power and releasing a car that emits only water.

Through it all, our goal never changes: create a safer, smarter world in which people experience the joy of mobility.

The Honda Canada Foundation
The Honda Canada Foundation enables the realization of dreams by supporting people and organizations across the country that focus on four pillars: Family, Education, Environment and Engineering. Since 2005, more than 5.5 million Canadians have benefited from charitable programs funded by the Honda Canada Foundation.

Blue Skies for Our Children
We believe everything we do must exist in harmony with nature. That’s where “Blue Skies for Our Children” was born. It’s more than a mantra – it’s an environmental pledge to the Earth and our future generations. And we’re practicing what we preach.

Leading the LEED® certifications
Our sales offices also strive for environmental efficiencies. Honda’s LEED® (Leadership in Energy and Environmental Design) Gold Certified Head Office campus in Markham, Ontario, includes green features such as a storm water management system, heat-reflective materials on the roof and bio swales for natural filtration. The facility uses 89 percent less litres of water per square foot and 38 percent less kilowatt hours of energy annually than the average office facility.

Zero Waste-to-Landfill
We don’t waste time. Or anything else for that matter. Our goal is to increase our recycling efforts, reduce overall waste and divert materials from landfill sites. In fact, last year we sent less than one percent of waste to landfills from our office and parts distribution facilities combined.

One Honda. One Tree.
We’re pretty obsessed with fresh air. For every lawn and garden or ATV product sold between April 1 and July 31 annually, the Honda Canada Foundation plants one tree. In the last 12 years, we’ve helped plant more than 160,000 trees in Canada.

Environmental Vehicles & Technology
Blending style, efficiency and a serious amount of thrill, the Accord Hybrid makes environmental responsibility feel almost rebellious. Combining a lithium-ion battery with a 2.0-litre engine, this Hybrid lets you go more and stop less on the way. The Honda Insight exemplifies hybrid efficiency, powered by a 1.5-litre Atkinson Cycle engine, electric motor and lithium-ion battery. And the future looks brighter with Honda advancing Fuel Cell technology that emits zero emissions.

Honda Clarity Plug-in Hybrid
Whoever said an eco-conscience came with compromise was sorely mistaken. This advanced plug-in hybrid vehicle lets you tap into electric power alongside the gas engine to create extra efficiency.
A cleaner today for a better tomorrow.

Everything we do – from the way we act, think and innovate – is rooted in creating a better future for the earth and its citizens. Protecting the environment is not some lofty mission statement. It’s a promise. It’s why we continually evolve our advanced line-up to include efficient hybrid technology and electrified vehicles. This commitment even lives through our communications, like this online-only brochure, as we strive to lower our overall eco-footprint.

Discover how Honda is helping sustain our environment at hondacanada.ca/environment.
