HS* = Feature is a component of the Honda Sensing® technologies of safety and driver assist features. 1. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE JI349 procedures.

 Horsebower and ordpre calculations reliect SAE free, rev. Op/04, SAE 3049 processiones.
 None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual. Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle's built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.
 Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.

5. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.

6. HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.).

7. Coverage varies by market.

8. Only available in certain areas. Includes a no-charge trial of three months.
 9. Estimated fuel economy based on Government of Canada's 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. For more information on 5-cycle testing, visit http://vehicles.nrcan.gc.ca.
